

TULIS | Commode chair

MAIN FEATURES

- The Commode Chair allows the user to achieve greater autonomy and independence while using the toilet and the shower, reducing muscle fatigue due to standing position as well as slip and injuries risks.
- The commode chair can be set up in three different configurations: placed directly on the toilet bowl, used in combination with the bucket as a commode and used in combination with the soft cushion as a shower seat.
- The legs are height adjustable so that the user can choose the specific length according to their needs.
- The legs can be configured so that the front ones are shorter than the rear ones. This promotes maintaining a healthier posture and reduce bending of knees and hips.
- The seat is provided with anti-slip caps and given its flexibility, it maintains stability also on bumpy floors, like those typical of many shower trays.

Recommendations for use:

For nursing

For indoors

Color:
White

Maintenance:

Periodically check that fixing fittings conform to initial mounting. Clean with water and non-aggressive detergent. Do not use abrasive or corrosive products.

Warranty:

The device has a 24-month warranty from the date of purchase.
